#### APPROVAL OF THE ANNUAL FINANCIAL STATEMENTS

#### APPROVAL OF ACCOUNTING OFFICER

Mr PL Volschenk

Municipal Manager

I am responsible for the preparation of these annual financial statements year ended 30 June 2017, which are set out on pages 1 to 75 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2018 and is satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

| rtify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 2: estitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determinance with this Act. |  |

Refer to note 43.1 for explanations of material variances between the original and final budget.

Refer to note 43.2 for explanations of material variances between actual amounts and the final budget.

 $\label{lem:material variances} \mbox{ are considered to be any variances greater than R2.5 million.}$ 

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1 ACCOUNTING POLICIES

#### 1.01 BASIS OF PREPARATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, unless specified otherwise.

The financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – November 2013) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

Assets, liabilities, revenue and expenses have not been offset, except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

#### 1.02 TRANSITIONAL PROVISIONS

The Municipality resolved to take advantage of the following transitional provisions:

In term of Directive 7 - "The Application of Deemed Cost on the Adoption of Standards of GRAP", the Municipality applied deemed cost to Investment Property and Property, Plant and Equipment where the acquisition cost of an asset could not be determined.

#### 1.03 PRESENTATION CURRENCY

The financial statements are presented in South African Rand, rounded off to the nearest Rand, which is the Municipality's functional currency.

#### 1.04 GOING CONCERN ASSUMPTION

These financial statements have been prepared on a going concern basis.

#### 1.05 COMPARATIVE INFORMATION

#### 1.05.1 Prior year comparatives

When the presentation or classification of items in the financial statements are amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed.

Where material accounting errors, which relate to prior periods, have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.05.2 Amended Accounting Policies

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements.

No significant amendments were made to the accounting policy in the current year.

#### 1.06 MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

#### 1.07 BUDGET INFORMATION

Budget information is presented on the accrual basis and is based on the same fiscal period as the actual amounts.

The Statement of Comparison of Budget and Actual Amounts includes the comparison between the approved and final budget amounts, as well as a comparison between the actual amounts and final budget amounts.

The disclosure of comparative information in respect of the previous period is not required by the Standards of GRAP.

#### NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

#### 1.08.1 Effective dates determined

1.08

Where a Standard of GRAP has been issued but is not yet effective, the Municipality may resolve to early adopt such a Standard of GRAP if an effective date has been determined by the Minister of Finance.

The Municipality resolved to early adopt any of the following amended Standards of GRAP which were issued but are not yet effective:

| Standard        | Description   | Effective Date |
|-----------------|---|----------------|
| GRAP 12 (2017)  | Inventories   | 1 April 2018   |
| GRAP 16 (2017)  | Investment Property   | 1 April 2018   |
| GRAP 17 (2017)  | Property, Plant and Equipment                                   | 1 April 2018   |
| GRAP 21 (2017)  | Impairment of non-cash-generating assets                        | 1 April 2018   |
| GRAP 26 (2017)  | Impairment of cash-generating assets                            | 1 April 2018   |
| GRAP 27 (2017)  | Agriculture   | 1 April 2018   |
| GRAP 31 (2017)  | Intangible Assets   | 1 April 2018   |
| GRAP 103 (2017) | Heritage Assets   | 1 April 2018   |
| GRAP 106 (2017) | Transfer of Functions Between Entities Not Under Common Control | 1 April 2018   |

The effect of the above-mentioned amended Standards of GRAP which were early adopted is considered insignificant. The amendments to the Standards of GRAP mainly relate to the clarification of accounting principles.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

The Municipality resolved not to early adopt the following Interpretation of the Standard of GRAP which was issued but is not yet effective:

| Standard        | Description                           | Effective Date |
|-----------------|---------------------------------------|----------------|
| iGRAP 18 (2017) | Recognition and Derecognition of Land | 1 April 2019   |

When the above-mentioned Interpretation of the Standards of GRAP becomes effective, the effect will be insignificant as the Municipality's current treatment is already in line with the interpretation's requirements and will only result in additional disclosure.

The Municipality further resolved not to early adopt Directive 12 - "The Selection of an Appropriate Reporting Framework by Public Entities" (effective 1 April 2018) as this Directive is not applicable to municipalities and will have no impact on the Municipality once it becomes effective.

#### 1.08.2 Effective dates not yet determined

Where a Standard of GRAP has been issued but not yet effective and the Minister of Finance has not yet determined an effective date, the Municipality may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event.

The following original Standards of GRAP have been issued but are not yet effective as the Minister of Finance has not yet determined the effective date for application:

#### 1.08.2.1 GRAP 18 - Segment Reporting (February 2011)

The objective of this Standard is to establish principles for reporting financial information by segments.

Preliminary investigations indicated that, other than additional disclosure, the impact of the Standards on the financial statements will be not be significant.

#### 1.08.2.2 GRAP 20 - Related Party Disclosure (June 2011)

The objective of this Standard is to ensure that a Municipality's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

The Municipality resolved to develop an accounting policy as set out in note 1.34 and also adopt the disclosure requirements of this Standard. The impact of this Standard on the financial statements will be minimal.

#### 1.08.2.3 GRAP 32 - Service Concession Arrangements: Grantor (August 2013)

The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public sector entity.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

#### 1.08.2.4 GRAP 34 - Separate Financial Statements (Original - March 2017)

The objective of this Standard is to prescribe the accounting and disclosure requirements for investments in controlled entities, joint ventures and associates when an entity prepares separate financial statements.

No significant impact is expected as the Municipality has no investments in any entities.

### 1.08.2.5 GRAP 35 - Consolidated Financial Statements (Original - March 2017)

The objective of this Standard is to establish principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.

No significant impact is expected as the Municipality does not control any entities.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.08.2.6 GRAP 36 - Investments in Associates and Joint Ventures (Original - March 2017)

The objective of this Standard is to prescribe the accounting for investments in associates and joint ventures and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures.

No significant impact is expected as the Municipality does not have investments in any associates or joint ventures.

#### 1.08.2.7 GRAP 37 - Joint Arrangements (Original - March 2017)

1.08.2.8

The objective of this Standard is to establish principles for financial reporting by entities that have an interest in arrangements that are controlled jointly (i.e. joint arrangements).

No significant impact is expected as the Municipality does not have an interest in any arrangements that are controlled jointly.

#### GRAP 38 - Disclosure of Interests in Other Entities (Original - March 2017)

The objective of this Standard is to require an entity to disclose information that enables users of its financial statements to evaluate:

- (a) the nature of, and risks associated with, its interests in controlled entities, unconsolidated controlled entities, joint arrangements and associates, and structured entities that are not consolidated; and
- (b) the effects of those interests on its financial position, financial performance and cash flows.

No significant impact is expected as the Municipality does not have an interest in any entities, associates, joint ventures or joint arrangements.

#### 1.08.2.9 GRAP 108 - Statutory Receivables (September 2013)

The objective of this Standard is to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.

The Municipality resolved to develop an accounting policy as set out in note 1.19.

The impact of this Standard on the financial statements will be minimal.

#### 1.08.2.10 GRAP 109 - Accounting by Principles and Agents (July 2015)

The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement.

No significant impact is expected as the Municipality's current treatment is already in line with the Standard's requirements.

#### 1.08.2.11 GRAP 110 - Living and Non-living Resources (Original - March 2017)

The objective of this Standard is to prescribe the:

- (a) recognition, measurement, presentation and disclosure requirements for living resources; and
- (b) disclosure requirements for non-living resources.

Preliminary investigations indicated that the Municipality's non-living resources do not fall within the scope of this Standard.

#### 1.08.2.12 IGRAP 17 - Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset (August 2015)

This Interpretation of the Standards provides guidance to the grantor where it has entered into a service concession arrangement, but only controls a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.09 RESERVES

#### 1.09.1 Capital Replacement Reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus to the CRR.

The following provisions are set for the creation and utilisation of the CRR:

- (a) The cash funds that back up the CRR are invested until utilised.
- (b) The CRR may only be utilised for the purpose of purchasing items of property, plant and equipment, and may not be used for the maintenance of these items.
- (c) Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR and the accumulated surplus is credited by a corresponding amount.

#### 1.10 INVESTMENT PROPERTY

#### 1.10.1 Initial Recognition

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, for administration purposes, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

Investment property is recognised as an asset when it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the Municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially measured at cost on its acquisition date. The cost of investment property is the purchase price and other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an investment property is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition and any other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Municipality. The cost of self-constructed investment property is the cost at date of completion. Transfers are made to or from investment property only when there is a change in use.

Where investment property is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

#### 1.10.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

#### 1.10.3 Depreciation – Cost Model

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

At each reporting date the Municipality assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on the a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

Buildings YEARS 100

#### 1.10.4 Impairment

Investment property is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

#### 1.10.5 Derecognition

An investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Financial Performance in the period of the retirement or disposal.

Compensation from third parties for items of investment property that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

#### 1.11 PROPERTY, PLANT AND EQUIPMENT

#### 1.11.1 Initial Recognition

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost or fair value of the item can be measured reliably.

Items of property, plant and equipment are initially recognised at cost on its acquisition date. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired through a non-exchange transaction, the cost is deemed to be equal to the fair value of that asset as at date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.11.2 Subsequent Measurement - Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

#### 1.11.3 Depreciation

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

At each reporting date the Municipality assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on the a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

|   | YEARS   |                           | YEARS    |
|---|---------|---------------------------|----------|
| Land and Buildings                      |         | Community                 |          |
| Land                                    | N/A     | Recreational Facilities   | 20 - 101 |
| Buildings                               | 9 - 101 | Parks & Gardens           | 50 - 71  |
| Capitalised Restoration Costs           | 14 - 22 | Community Halls           | 16 - 101 |
|   |         | Libraries                 | 51 - 100 |
| Infrastructure                          |         | Cemeteries                | 30 - 71  |
| Roads, Pavements, Bridges & Storm Water | 4 - 50  | Museums and Art Galleries | 0-100    |
| Water Network                           | 8 - 60  | Work in Progress          | N/A      |
| Electricity Network                     | 9 - 115 |                           |          |
| Sewerage Network                        | 5 - 60  | Other                     |          |
| Work in Progress                        | N/A     | Computer Equipment        | 5 - 17   |
|   |         | Motor Vehicles            | 8 - 26   |
| Finance lease assets                    |         | Office Equipment          | 5 - 31   |
| Office equipment                        | 3 - 11  | Plant & Equipment         | 5-36     |
|   |         | Specialised Vehicles      | 15 - 19  |

#### 1.11.4 Impairment

Property, plant and equipment is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.11.5 Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

#### 1.12 INTANGIBLE ASSETS

#### 1.12.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

The Municipality recognises an intangible asset only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Municipality and the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost on its acquisition date. The cost of an intangible asset is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost is measured at its fair value at the date of acquisition and any other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Internally generated intangible assets are subject to a strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (b) its intention to complete the intangible asset and use or sell it;
- (c) its ability to use or sell the intangible asset;
- (d) how the intangible asset will generate probable future economic benefits or service potential;
- (e) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- (f) its ability to measure reliably the expenditure attributable to the intangible asset during its development.

#### 1.12.2 Subsequent Measurement - Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairments losses.

#### 1.12.3 Amortisation

The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is still subject to an annual impairment test.

Amortisation of an intangible with a finite life asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Amortisation ceases at the date that the asset is derecognised.

Amortisation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the intangible assets. The amortisation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

The residual value of an intangible asset with a finite useful life is considered to be zero.

The amortisation period and amortisation method are reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

The annual amortisation rates are based on the following estimated useful lives:

Years
Computer Software 6-16

#### 1.12.4 Impairment

Intangible assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

#### 1.12.5 Derecognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

#### 1.13 IMPAIRMENT OF NON-MONETARY ASSETS

An impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

Cash-generating assets are assets held with the primary objective of generating a commercial return. Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Municipality estimates the recoverable amount of the asset.

#### 1.13.1 Recoverable amount of Cash-generating assets

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

The best evidence of fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

#### 1.13.2 Recoverable amount of Non-cash-generating assets

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use.

The value in use for a non-cash generating asset is the present value of the asset's remaining service potential. Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.13.3 Impairment loss

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation decrease in accordance with that Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### 1.13.4 Reversal of an impairment loss

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

A reversal of an impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation increase in accordance with that Standard of GRAP.

After the reversal of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### 1.14 INVENTORIES

#### 1.14.1 Initial Recognition

Inventories are assets:

- (a) in the form of materials or supplies to be consumed in the production process;
- (b) in the form of materials or supplies to be consumed or distributed in the rendering of services;
- (c) held for sale or distribution in the ordinary course of operations; or
- (d) in the process of production for sale or distribution.

Inventories are recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost of the inventories can be measured reliably.

Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Trade discounts, rebates and other similar items are deducted in determining the costs of purchase.

Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventories are acquired through a non-exchange transaction, the cost is measured at the fair value as at the date of acquisition plus any other costs in bringing the inventories to their current location and condition.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.14.2 Subsequent Measurement

When inventories are sold, exchanged or distributed the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expense is recognised when the goods are distributed, or related service is rendered.

Inventories are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution. Current replacement cost is the cost the Municipality would incur to acquire the asset on the reporting date.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories is recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The basis of allocating cost to inventory items is the first-in-first-out (FIFO) method.

At reporting date, the water volume is determined by way of dip readings and the calculated volume in the distribution network. Water inventory is then measured by multiplying the cost per kilo litre of purified water by the amount of water in storage.

Cost of land held for sale is assigned by using specific identification of their individual costs.

#### 1.15 EMPLOYEE BENEFITS

Defined-contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year during which they become payable.

Defined-benefit plans are post-employment benefit plans other than defined-contribution plans.

#### 1.15.1 Post-Retirement Benefits

The Municipality provides retirement benefits for its employees and councillors. Retirement benefits consist of defined-contribution plans and defined-benefit plans.

#### 1.15.1.1 Multi-employer defined benefit plans

The Municipality contributes to various National- and Provincial-administered defined benefit plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year they become payable. These defined benefit funds are actuarially valued on the projected unit credit method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

#### 1.15.1.2 Post Retirement Medical Benefits

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 60% as contribution and the remaining 40% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined. The plan is unfunded.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Contributions are recognised in the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability is calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the present value of the defined benefit obligation at the reporting date, minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly, plus any liability that may arise as a result of a minimum funding requirements. Payments made by the Municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, are recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

#### 1.15.2 Long-term Benefits

#### 1.15.2.1 Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the Municipality. The Municipality's obligation under these plans is valued by independent qualified actuaries annually and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

#### 1.15.3 Short-term Benefits

#### 1.15.3.1 Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at reporting date and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Accumulated leave is vesting.

#### 1.15.3.2 Bonuses

The liability for staff bonuses is based on the accrued bonus for each employee at reporting date.

#### 1.15.3.3 Provision for Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is recognised as it accrue to Section 57 employees. Provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

#### 1.16 PROVISIONS

A provision is a liability of uncertain timing or amount. Provisions are recognised when the Municipality has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made.

Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when it is virtually certain that reimbursement will be received if the Municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement will not exceed the amount of the provision. In the Statement of Financial Performance, the expense relating to a provision may be presented net of the amount recognised for a reimbursement.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Municipality has a detailed formal plan for the restructuring identifying at least:
  - the business or part of a business concerned;
  - the principal locations affected;
  - the location, function and approximate number of employees who will be compensated for terminating their services;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented.
- (b) The Municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is derecognised.

#### 1.17 LEASES

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

#### 1.17.1 Municipality as Lessee

#### 1.17.1.1 Finance Leases

At the commencement of the lease term, the Municipality recognises assets acquired under finance leases as assets and the associated lease obligations as liabilities in the Statement of Financial Position.

At the inception of the lease, the assets and liabilities are recognised at the lower of the fair value of the leased property and the present value of the minimum lease payments. The discount rate to be used in calculating the present value of the minimum lease payment is the interest rate implicit in the lease. If the rate implicit to the lease is not available the Municipality's incremental borrowing rate is used. Any initial direct costs of the Municipality are added to the amount recognised as an asset.

Subsequent to initial recognition, the minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge are allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents, if any, are charged as expenses to the Statement of Financial Performance in the periods in which they are incurred. The leased assets are accounted for in accordance with the stated accounting policies applicable to the assets.

#### 1.17.1.2 Operating leases

Lease payment under an operating lease is recognised as an expense in the Statement of Financial Performance on a straight-line basis over lease term, unless another systematic basis is more representative of the time pattern of the user's benefit. The difference between the straight-lined expenses and actual payments made will give rise to a liability.

#### 1.17.2 Municipality as Lessor

#### 1.17.2.1 Finance Leases

The Municipality recognises lease payments receivable under a finance lease as assets (receivable) in the Statement of Financial Position. The asset (receivable) is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the Municipality, discounted at the interest rate implicit in the lease.

The asset (receivable) is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis in the Statement of Financial Performance.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.17.2.2 Operating Leases

Operating lease revenue is recognised in the Statement of Financial Performance on a straight-line basis over the term of the relevant lease, unless another systematic basis is more representative of the time pattern in which benefit derived from the leased asset is diminished. The difference between the straight-lined revenue and actual payments received will give rise to an asset.

#### 1.18 FINANCIAL INSTRUMENTS

#### 1.18.1 Initial Recognition

Financial instruments (financial assets and financial liabilities) are recognised on the Municipality's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

Financial instruments are initially recognised at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Municipality, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

#### 1.18.2 Subsequent Measurement

Financial instruments are categorised as follow:

- (a) Financial instruments at amortised cost are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. They are included in current assets or current liabilities, except for maturities greater than 12 months, which are classified as non-current. After initial recognition, both financial assets and financial liabilities are measured at amortised cost, using the effective interest rate method. Financial assets are also subject to an impairment review.
- (b) **Financial instruments at cost** are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured. Both financial assets and financial liabilities are subsequently measured at cost. Financial assets are subject to an impairment review.
- (c) Financial instruments at fair value comprise of financial assets or financial liabilities that are:
  - (i) derivatives;
  - (ii) combined instruments that are designated at fair value;
  - (iii) instruments held for trading;
  - (iv) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
  - (v) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Both, financial assets and financial liabilities are subsequently measured at fair value with unrealised gains or losses recognised directly in the Statement of Financial Performance.

#### 1.18.3 Impairment and uncollectability of financial assets

Financial assets, other than those at fair value, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence of impairment of financial assets.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.18.3.1 Financial assets measured at amortised cost

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Cash flows relating to short-term financial assets are not discounted where the effect of discounting is immaterial. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment is reversed by adjusting an allowance account. The amount of the reversal is recognised in Statement of Financial Performance.

#### 1.18.3.2 Financial assets measured at cost

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses is not be reversed.

#### 1.18.4 Derecognition of financial instruments

#### 1.18.4.1 Financial assets

The Municipality derecognises financial assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Financial assets (receivables) are also derecognised when Council approves the write-off of financial assets due to non-recoverability.

If the Municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the Municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

#### 1.18.4.2 Financial liabilities

The Municipality derecognises financial liabilities when the Municipality's obligations are discharged, cancelled or they expire.

The Municipality recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

#### 1.18.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### 1.19 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

#### 1.19.1 Initial Recognition

Statutory receivables are recognised when the related revenue (exchange or non-exchange revenue) is recognised or when the receivable meets the definition of an asset. The Municipality initially measure statutory receivables at their transaction amount.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.19.2 Subsequent Measurement

The Municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is subsequently changed to reflect any interest or other charges that may have accrued on the receivable, less any impairment losses and amounts derecognised.

#### 1.19.3 Impairment and uncollectability of statutory receivables

The Municipality assesses at each reporting date whether there is any indication that a statutory receivable may be impaired.

If there is an indication that a statutory receivable may be impaired, the Municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

#### 1.19.4 Derecognition

The Municipality derecognises a statutory receivable when the rights to the cash flows from the receivable are settled, expire or are waived or the Municipality transfers the receivable and substantially all the risks and rewards of ownership of the receivable to another entity.

When the Municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of receivable to another entity, the Municipality derecognises the receivable and recognises separately any rights and obligations created or retained in the transfer.

## 1.20 CASH AND CASH EQUIVALENTS

Cash includes cash on hand, cash held with banks, and call deposits. Cash equivalents are short-term highly liquid investments with registered banking institutions with maturities of three months or less from inception, readily convertible to cash without significant change in value.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred in the Statement of Financial Performance.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

#### 1.21 RECEIVABLES

Receivables are recognised initially at fair value, which approximates amortised cost less provision for impairment. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of receivables is established when there is objective evidence that the Municipality will not be able to collect all amounts due according to the original terms of receivables. An estimate is made for impairment of receivables, based on past default experience of all outstanding amounts at reporting date.

Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the Statement of Financial Performance.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.22 TAXES (VALUE ADDED TAX)

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included in the Statement of Financial Position. The Municipality accounts for value-added tax (VAT) on the payment basis.

#### 1.23 PAYABLES AND ANNUITY LOANS

Payables and annuity loans are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

#### 1.24 CONSUMER DEPOSITS

Consumer deposits are disclosed as a current liability. Consumer deposits are levied in line with council's policy to consumers when services are initially connected. When services are disconnected or terminated, the outstanding deposit is utilised against any arrear accounts the consumer might be liable for on that date. Any excess deposit after all debt is settled is refunded to the specific consumer.

#### 1.25 CONDITIONAL GOVERNMENT GRANTS AND PUBLIC CONTRIBUTIONS

Grants, transfers and donations received or receivable are recognised as assets when the resources that have been transferred to the Municipality meet the definition and criteria for recognition as assets.

Conditional grants, transfers and donations are recognised as revenue to the extent that the Municipality has complied with the conditions embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the conditions have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

The liability recognised to the extent that the conditions associated with the grant, transfer or donation have not been met, always has to be cash-backed. The cash which backs up the liability is invested as a individual investment or part of the general investments of the Municipality until it is utilised.

Interest earned on investments of grants, transfers and donations are treated in accordance with conditions as stipulated in the agreement. If it is payable to the grantor it is recorded as part of the creditor and if it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

#### 1.26 REVENUE

At the time of initial recognition, the full amount of revenue is recognised where the Municipality has an enforceable legal obligation to collect, unless the Municipality has no intention of collecting this revenue. Where the Municipality has no intention of collecting the revenue, rebates and discounts are offset against the related revenue. If the Municipality does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

#### 1.26.1 Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange.

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.26.1.1 Taxation Revenue

Taxation revenue comprises of property rates. Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

#### 1.26.1.2 Transfer Revenue

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants, transfers and donations without any conditions attached are recognised as revenue when the asset is recognised.

#### 1.26.1.3 Fines

Fine Revenue constitutes both spot fines and summonses. All fines issued during the year less any cancellations or reductions are recognised as revenue. Any fine reductions or cancellations subsequent to the reported date is recorded as a write-off against the provision raised for debt impairment.

#### 1.26.1.4 Insurance Receipts

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

#### 1.26.1.5 Unclaimed deposits

All unclaimed deposits are initially recognised as a liability until 36 months expires, when all unclaimed deposits into the Municipality's bank account will be treated as revenue. This policy is in line with prescribed debt principle as enforced by law.

#### 1.26.1.6 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the MFMA (Act 56 of 2003), and is recognised upon the recovery thereof from the responsible party.

#### 1.26.1.7 Services in-kind

Services in-kind include services provided by individuals to the Municipality at no charge or where the Municipality has the right to use assets at no charge.

The Municipality's recognises services in-kind that are significant to its operations as assets and recognises the related revenue when it is probable that the future economic benefits or service potential will flow to the Municipality and the fair value of the assets can be measured reliably.

When the criteria for recognition is satisfied, services in-kind are recognised at their fair value as at the date of acquisition.

If the services in-kind are not significant to the Municipality's operations or does not satisfy the criteria for recognition, the Municipality only disclose the nature and type of services in-kind received during the reporting period.

#### 1.26.1.8 Contributed Assets

Contributed assets are recognised at fair value when such items of property, plant and equipment qualifies for recognition and become available for use by the Municipality.

#### 1.26.2 Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.26.2.1 Service Charges

Service Charges are levied in terms of approved tariffs.

Service charges relating to electricity and water are based on consumption and a basic charge as per the approved tariffs. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Municipality was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created, based on consumption history. The provisional estimates of consumption are recognised as revenue when invoiced, except at reporting date when estimates of consumption up to the reporting date are recorded as revenue without being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale. It is estimated that pre-paid electricity is consumed within 5 to 7 days after date of purchase. The pre-paid electricity sold, but not consumed yet at reporting date is recognised as a liability under Payables from Exchange Transactions in the Statement of Financial Position.

Service charges relating to sewerage and sanitation are recognised on a monthly basis in arrears by applying the approved tariff to each property. These service charges are based on the type of service and the number of sewer connections on all developed property, using the tariffs approved and are levied on a monthly basis.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

#### 1.26.2.2 Interest earned

Interest earned on investments is recognised in the Statement of Financial Performance on the time proportionate basis that takes into account the effective yield on the investment.

#### 1.26.2.3 Rental income

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

#### 1.26.2.4 Income from Agency Services

Revenue arising out of situations where the Municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the Municipality as compensation for executing the agreed services.

Income from agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

#### 1.26.2.5 Other Tariffs

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

#### 1.26.2.6 Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- (a) The Municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- (b) The Municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- (c) The amount of revenue can be measured reliably.
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the Municipality.
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.26.2.7 Deferred payment

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

#### 1.27 BORROWING COSTS

Borrowing costs that are incurred by the Municipality are expensed in the Statement of Financial Performance in the period during which they are incurred, regardless of how the borrowings are applied.

#### 1.28 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 1.29 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Municipality's Supply Chain Management Policy. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance.

#### 1.30 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 1.31 CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measures with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

#### 1.32 CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.33 EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- (a) those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- (b) those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Municipality discloses the nature and an estimate of the financial effect.

#### 1.34 RELATED PARTIES

The Municipality regards a related party as a person or an entity with the ability to control the Municipality either individually or jointly, or the ability to exercise significant influence over the Municipality, or vice versa.

Management is regarded as a related party and comprises the Councillors, Executive Mayor, Deputy Mayor, Speaker, Mayoral Committee members, Municipal Manager, executive directors and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

A close family member of management is also considered to be related party. A person is considered to be a close member of the family of another person if they are married or live together in a relationship similar to a marriage or are separated by no more than two degrees of natural or legal consanguinity or affinity.

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms, are disclosed.

#### 1.35 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the process of applying the Municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

#### 1.35.1 Application of Directive 7

For deemed cost applied to Property, Plant and Equipment as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

GRAP implementation date for the Municipality is 1 July 2009 which is also the date applicable when applying Directive 7. The GRAP compliant period is therefore determined to be from 1 July 2009 to the current year's reported date. Where the economic useful life of an items of Property, Plant and Equipment is less than the GRAP compliant period, it is assumed that the item was either incorrectly written off in the past, or that the capital expenditure of the said item was incorrectly included in surplus. In such cases the item shall not be recognised on GRAP implementation date, but shall be taken into account on that date of the opening balances of the comparative amounts.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

#### 1.35.2 Impairment of Receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

#### 1.35.3 Useful lives and residual values

The useful lives of assets are based on management's estimates. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

The estimated residual values of assets are also based on management's judgement on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

#### 1.35.4 Impairment of non-monetary assets

Non-monetary assets can include, but is not limited to, Property, Plant and Equipment, Investment Property and Intangible assets.

The Municipality is not a profit-oriented entity, as its primary objective is service delivery. Tariffs and charges are cost-reflective to ensure continued financial sustainability. No profit element is included in the determination of a tariff. As such, management has determined that the Municipality does not control assets that meet the definition of cash-generating assets and that the Standard of GRAP on Impairment of Non-cash-generating Assets will apply to all assets of the Municipality.

The calculation in respect of the impairment of non-monetary assets is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This calculation will only be performed if there is an indication of an impairment.

#### 1.35.5 Post-Retirement and Long-term Benefits

The cost of post retirement medical benefits and long-service awards are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

#### 1.35.6 Provisions and Contingent Liabilities

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. The discount rate used to calculate the effect of time value of money is linked to the index for earthwork as published by Statistics South Africa.

## 1.35.7 Financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. In making the judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in the Standard of GRAP on Financial Instruments.

#### 1.35.8 Revenue Recognition

Accounting Policy on Revenue from Non-Exchange Transactions and Accounting Policy on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as prescribed in the Standard of GRAP on Revenue from Exchange Transactions and Standard of GRAP on Revenue from Non-Exchange Transactions. Specifically, when goods are sold, whether the significant risks and rewards of ownership of the goods have been transferred to the buyer and when services are rendered, whether the service has been performed.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

| n Rand   | 2017         | 2016      |
|--|--------------|-----------|
| CASH AND CASH EQUIVALENTS  |              |           |
| Bank Accounts  | 2 859 556    | 2 308 965 |
| Call Investment Deposits   | 19 433 004   | 173 836   |

|         | Total  | 39 968 282 | 52 821 757 |
|         | As previously reported   |            | 53 559 597 |
|         | Correction of error restatement - note 39.4  | _          | (737 840)  |
|         | Restated balance   | _          | 52 821 757 |
|         | Payables are being recognised net of any discounts received.   | •          |            |
|         | The credit period granted is considered to be consistent with the terms used in the public sector, through established practices and legislation. Discounting of trade and other payables on initial recognition is not deemed necessary |            |            |
|         | The carrying value of trade and other payables approximates its fair value.  |            |            |
|         | Sundry deposits include hall, builders and housing Deposits.   |            |            |
|         | Deposits amounting to R3 146 720 serve as security for Payables. The remainder of Payables are unsecured.  |            |            |
| 14      | UNSPENT CONDITIONAL GOVERNMENT GRANTS  |            |            |
|         | National Government  | 18 406 836 | 1 224 044  |
|         | Provincial Government  | 13 908 158 | 1 190 292  |
|         | Total –  | 32 314 994 | 2 414 336  |
|         | =  |            |            |

Detail reconciliations of all grants received and grant conditions met are included in note 20. Unspent grant balances are recognised to the extent that conditions are not yet met.

No grants were withheld in the current year.

Due to the short term nature of unspent grant balances, the carrying value approximates the fair value of the unspent conditional grants at year-end.

Keyhealth

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

# Figures in Rand 2017 2016

#### 16 EMPLOYEE BENEFITS (CONTINUED)

Key Actuarial Assumptions used are as follows:

#### i) Interest Rates

| Discount rate                   | 9.80% | 9.47% |
|---------------------------------|-------|-------|
| Health Care Cost Inflation Rate | 8.08% | 8.51% |
| Net Effective Discount Rate     | 1.59% | 0.89% |

The discount rate used is a composite of all government bonds and is calculated using a technique is known as "bootstrapping"

#### ii) Mortality Rates

The PA 90 ultimate table, rated down by 1 year of age for post retirement, and the SA 85-90 table for in service employees, were used by the actuaries.

#### iii) Normal Retirement Age

It has been assumed that in-service members will retire at age 61, which then implicitly allows for expected rates of early and ill-health retirement.

#### iv) Last Valuation

The last valuation was performed on 4 August 2017.

#### v) Actuarial Valuation Method

The Projected Unit Credit Method has been used to value the liabilities.

#### Sensitivity Analysis - Liability at year-end

| Assumption  | In-service<br>members<br>(R) | Continuation<br>members<br>(R) | Total liability<br>(R) | % change |
|---|------------------------------|--------------------------------|------------------------|----------|
| Liability   | 17 612 748                   | 8 095 194                      | 25 707 942             |          |
| Health care inflation (+1%)                           | 19 301 000                   | 8 449 000                      | 27 750 000             | 8%       |
| Health care inflation ( - 1%)                         | 15 596 000                   | 7 697 000                      | 23 293 000             | -9%      |

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

| Figures in Rand | 2017 | 2016 |
|-----------------|------|------|
|                 |      |      |

#### 16 EMPLOYEE BENEFITS (CONTINUED)

Key Actuarial Assumptions used are as follows:

#### i) Interest Rates

| Discount rate   | 8.61% | 8.51% |
|---|-------|-------|
| General Salary Inflation (long-term)                                      | 7.27% | 6.33% |
| Net Effective Discount Rate applied to salary-related Long Service Awards | 1.26% | 2.05% |

The discount rate used is a composite of all government bonds and is calculated using a technique is known as "bootstrapping"

#### ii) Last Valuation

The last valuation was performed on 4 August 2017.

#### iii) Actuarial Valuation Method

The Projected Unit Credit Method has been used to value the liabilities.

### Sensitivity Analysis on the Unfunded Accrued Liability

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

| ures in | Rand  | 2017      | 2016      |
|---------|---|-----------|-----------|
|         | EMPLOYEE BENEFITS (CONTINUED)   |           |           |
| 16.3    | Other Pension Benefits  |           |           |
|         | Defined Benefit Plans   |           |           |
|         | Council contributes to the following defined benefit plans:   |           |           |
|         | LA Retirement Fund (Former Cape Joint Pension Fund)   | 78 094    | 83 907    |
|         | The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2016 revealed that the fund is in an sound financial position with a funding level of 106.1% (30 June 2015 - 102.4%).  |           |           |
|         | Consolidated Retirement Fund (Former Cape Retirement Fund)  | 6 148 623 | 5 678 480 |
|         | The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2016 revealed that the fund is in a sound financial position with a funding level of 100.6% (30 June 2015 - 100.4%).   |           |           |
|         | Total =   | 6 226 717 | 5 762 387 |
|         | Both the LA Retirement Fund and Consolidated Retirement Fund are multi-employer plans. Multiple local authorities participate in these multi-employer funds. Multi-employer plans are defined as defined benefit plans. When sufficient information is not available to use defined benefit accounting for a multi-employer plan, an entity will account for the plan as if it were a defined contribution plan.  |           |           |
|         | The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.  |           |           |
|         | As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension. |           |           |
|         | Therefore, although the LA Retirement Fund and Consolidated Retirement Fund are Multi-<br>employer funds defined as defined benefit plan, it will be accounted for as defined contribution<br>plan due to sufficient information not being available.   |           |           |
|         | Defined Contribution Plans  |           |           |
|         | Council contributes to the following defined contribution plans:  |           |           |
|         | National Funds for Municipal Workers  | 565 519   | 436 019   |
|         | SAMWU National Provident Fund   | 1 008 472 | 1 009 430 |
|         | Municipal Councillors Pension Fund  | 437 382   | 371 567   |
|         | Total   | 2 011 373 | 1 817 015 |

The retirement benefit funds are subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

| Figures in Rand        |  | 2017                    | 2016                    |
|------------------------|--|-------------------------|-------------------------|
| 17 NON-CUR             | RENT PROVISIONS  |                         |                         |
| Provision              | for Rehabilitation of Landfill-sites   | 42 614 204              | 40 044 861              |
| The move               | ment in Rehabilitation Provision - Landfill Sites are reconciled as follows: |                         |                         |
| Opening E<br>Contribut | Balance<br>ion during the year   | 40 044 861<br>2 569 343 | 38 339 985<br>1 704 876 |
|                        | ese/(Decrease) in estimate<br>est Cost                                       | (33 573)<br>2 602 916   | (570 838)<br>2 275 714  |
| Total                  |  | 42 614 204              | 40 044 861              |

The calculation for the rehabilitation of the landfill site provision was compiled by an independent qualified engineer in order to determine the present value to rehabilitate the landfill sites at the end of its useful life. The total obligation at year-end can be attributed to the following sites:

| Location      | Site Dimensions      | Estimated<br>Decommission Date | Cost of<br>Rehabilitation | Cost of<br>Rehabilitation |
|---------------|----------------------|--------------------------------|---------------------------|---------------------------|
| Clanwilliam   | 24 725m²             | 2024                           | 11 838 905                | 11 123 008                |

|        | Valuations on land and buildings are performed every five years. The last valuation came into effect on 1 July 2016. Interim valuations are processed on an annual basis to include changes in property values and subdivisions.                     |   |  |
|        | The first R 15 000 of the valuation on properties used only for residential purposes are exempted from property rates in terms of the Property Rates Act.  |   |  |
|        | Rates are levied monthly and annually. Monthly rates are payable by the end of the month in which the amount was levied and annual rates are payable before 30 September. Interest is levied at the prime rate plus 1% on outstanding monthly rates. |   |  |
|        | Rebates can be defined as any income that the Municipality is entitled by law to levy, but in terms of Council's own policy opted not to collect it.   |   |  |

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

# Figures in Rand 2017 2016

### 39 PRIOR PERIOD ADJUSTMENTS - CORRECTION OF ERROR

#### 39.1 Receivables from Exchange Transactions

Corrections made to Receivables from Exchange Transactions include the following:

- Reversal of levies on faulty electricity and water meters.
- Availability fees were incorrectly levied on impermissible stands and erven.
- Where interest were charged on the principle debt which was reversed, that interest was also subsequently reversed.

The net effect of the above-mentioned errors were as follow:

| - Receivables from Exchange Transactions - note 3 | Overstated  | (533 785) |
|---|-------------|-----------|
| - Taxes - note 5                                  | Understated | 37 733    |
| - Service Charges - note 25                       | Overstated  | (57 449)  |
| - Interest Earned - outstanding debtors - 27      | Overstated  | (47 579)  |
| - Accumulated Surplus - note 39.5                 | Overstated  | (391 025) |

#### 39.2 Receivables from Non-Exchange Transactions

Corrections made to Receivables from Non-Exchange Transactions include the following:

- Property Rates were incorrectly levied on impermissible and/or expropriated stands and erven .
- Rebates were awarded to indigents, but the rates was not levied in the first place.
- Where interest were charged on the principle debt which was reversed, that interest was also subsequently reversed.
- Not all Eskom deposits and interest were account for amounting in an understatement of R2.8 million in deposits.

The net effect of the above-mentioned errors were as follow:

| <ul> <li>Receivables from Non-Exchange Transactions - note 4</li> </ul> | Understated | 2 192 509 |
|---|-------------|-----------|
| - Property Rates - note 18  | Overstated  | (118 113) |
| - Accumulated Surplus - note 39.5                                       | Understated | 2 396 428 |
| - Interest Earned - outstanding debtors - 27                            | Overstated  | (85 807)  |

### 39.3 Property, Plant and Equipment

Corrections made to Investment Property include the following:

- Assets with a zero book value which were still in use, were assessed and the remaining useful lives were adjusted accordingly.
- Other Assets (movable assets) previously not included in the asset register were identified during the current years asset verification.

The net effect of the above-mentioned errors were as follow:

| - | Property, Plant and Equipment - note 9  | Understated | 228 457 |
|---|---|-------------|---------|
| - | Depreciation and Amortisation - note 33 | Understated | 53 151  |
| - | Accumulated Surplus - note 39.5         | Understated | 281 608 |

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Figures in Rand 2017 2016

#### 39 PRIOR PERIOD ADJUSTMENTS - CORRECTION OF ERROR (CONTINUED)

#### 39.4 Payables from exchange transactions

Corrections made to Payables from Exchange Transactions include the following:

- Invoices amounting to R1.133 million were raised by a supplier. However, the Municipality
  was in disagreement with the invoices as the Municipality was of the opinion that these
  invoices were duplicated. Credit notes were subsequently issued by the supplier in this
  regard. The Municipality faulted by raising the initial invoices, which should not have been
  raised as no obligation existed.
- Invoices amounting to R463 948 were not accrued for as on 30 June 2016.
- In the prior year, a duplication on Bulk Purchases were reversed as a prior year error.
   However, the duplicated VAT portion was not reversed resulting in Bulk Purchases being understated.

The net effect of the above-mentioned errors were as follow:

| - Taxes - note 5                                | Understated | 162 534   |
|---|-------------|-----------|
| - Payables from exchange transactions - note 13 | Overstated  | (737 840) |
| - Bulk Purchases - note 36                      | Understated | 31 497    |
| - Other Expenditure - note 37                   | Understated | 130 930   |
| - Accumulated Surplus - note 39.5               | Understated | 737 733   |

#### 39.5 Accumulated Surplus

| Receivables from Exchange Transactions - note 39.1     | (391 025) |
|--|-----------|
| Receivables from Non-Exchange Transactions - note 39.2 | 2 396 428 |
| Property, Plant and Equipment - note 39.3              | 281 608   |
| Payables from exchange transactions - note 39.4        | 737 733   |
| Total  | 3 024 746 |

### 40 PRIOR PERIOD ADJUSTMENTS - RECLASSIFICATION

#### 40.1 Repairs and Maintenance

In the current year the Accounting Standards Board (ASB) issued a FAQ which states that the line item "Repairs and Maintenance" is no longer permitted in the Statement of Financial Performance, and that the said expenditure should be reclassified by it's nature. Accordingly all "Repairs and Maintenance" expenditure was reallocated to "Other Expenditure" and classified by their nature as follow:

| Total                           | 6 625 820 |
|---------------------------------|-----------|
| Rentals                         | 280 092   |
| Printing and Stationary         | 13 324    |
| Maintenance Contracted Services | 3 443 732 |
| Maintenance Materials           | 2 795 311 |
| Cleaning Materials              | 93 361    |

#### BUDGET COMPARISONS

43

#### 43.1 Original vs Final Budget

#### **Statement of Financial Position**

Items in the State of Financial Position were adjusted to take into account adjustments made to the operating and capital budget and also to align balances with the actual audit outcomes of 2015/16.

In addition, both non-current assets and non-current liabilities were increased in anticipation of the Municipality entering into a finance lease for the purchase of utility vehicles.

#### Statement of Financial Performance - Revenue

Transfers Recognised (Operational) was adjusted as follow:

- Increase in allocation of R2.8 million for Marine Living Resources grant.
- Additional allocation of R1.7million for Municipal Capacity Building Grant.
- Additional allocation of R3.7 million for Human Settlement Development Grant.

Other Own Revenue was increased to take into account the recognition of Traffic Fines in terms of IGRAP 1 amounting to R27.4 million.

Transfers Recognised (Capital) was adusted as follow:

- Approval of roll over appliction for Water Subsidy Operating Grant amounting to R1.224 million.
- Additional allcoation of R13.3 million for Acceleration of Housing Delivery Grant (Citrusdal WWTW)
- Additional allcoation of R1.8 million for Municipal Drought Support Grant (Boreholes Algeria)

#### Statement of Financial Performance - Expenditure

Employee Related Costs were increased as a result of EPWP programmes (Acting of Fire and Law Enforcement). In addition, overtime and standby allowances were also increased to be in line with the actual outcome of 2015/16.

Debt Impairment was increased due to the implementation of IGRAP 1 relating to Traffic Fines of which the greater percentage of traffic fines issued are considered to be impaired. In addition, Debt Impairment relating to consumer debtors was also increased to be in line with the actual outcome of 2015/16.

Other Expenditure was increased to take into account grant expenditure relating the Transfers Recognised (Operational).

#### **Cash Flow Statement**

Net Cash Flow from Operating Activities was increased due to additional grant funding (both operational and capital).

Net Cash Flow from Investing Activities was increased to take into account additional capital expenditure resulting from grant funding, as well the Municipality entering into a finance lease for the purchase of utility vehicles.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Figures in Rand 2017 2016

### 43 BUDGET COMPARISONS (CONTINUED)

#### 43.2 Actual Amounts vs Final Budget

#### **Statement of Financial Position**

Current assets were less than budgeted for due to several grant funded projects which were not concluded at year-end, resulting in a higher bank balance.

Non-current assets were less than budgeted for as the incorrect opening balances of Property, Plant and Equipment was incorporated in the budget.

Current liabilities were more than budgeted for due to the following:

- Payables from Exchange Transactions were more than anticipated due to cash flow constraints.
- Several grant funded projects has not been concluded at year-end, resulting in unspent government grants.

#### Statement of Financial Performance - Revenue

Transfers recognised (operational) were less than budgeted due to grant funded projects which were not concluded at year-end.

Own Revenue were more than budgeted for due to the following:

- Actual interest on rates included under Own Revenue, while being budgeted for under Property Rates.
- Fines issued, less any reductions and withdrawels, were less than anticipated.

Transfers recognised (capital) was less than budget due to several grant funded projects which were not concluded at year-end.

#### <u>Statement of Financial Performance - Expenditure</u>

Employee Costs were more than budgeted for as Employee Related costs relating to grants were budgeted under Other Expenditure (Other Operating Grant Expenditure).

Debt Impairment was less than the budget due to less fines issued (after deducting reductions and withdrawels) than anticipated.

Other Expenditure was less than budget due to the following:

- Employee Related Costs relating to grants was budgeted under Other Expenditure but reallocated for GRAP purposes to Employee Related Costs.
- General saving on Other Expenditure due to austerity measures.

#### **Cash Flow Statement**

Net Cash Flow from Operating Activities was less than budgeted for due to less fines collected than anticipated.

Net Cash Flow from Investing Activities was less than budgeted for as not all projects were implemented.

Page 70

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

## Figures in Rand 2017 2016

#### 48 FINANCIAL RISK MANAGEMENT

The Municipality is potentially exposed to the following risks:

#### 48.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The following financial assets are exposed to credit risk:

| Total                                  | 48 774 167 | 30 115 319 |
|--|------------|------------|
| Receivables from exchange transactions | 26 473 276 | 27 625 088 |
| Cash and Cash Equivalents              | 22 300 890 | 2 490 231  |

#### Cash and Cash Equivalents

Deposits of the Municipality is only held at reputable banks that are listed on the JSE. The credit quality is regularly monitored through required SENS releases by the various banks. The risk pertaining to these deposits are considered to be very low.

There are no restrictions on the cash deposits held and no cash were pledged as security. No collateral is held for any cash and cash equivalents.

#### **Receivables from Exchange Transactions**

Receivables comprise of a large number of users, dispersed across different sectors and geographical areas. On-going credit evaluations are performed on the financial condition of these receivables. Credit risk pertaining to receivables are considered to be moderate due the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Receivables are disclosed after taking into account the provision for impairment raised against each class of receivable.

Receivables are payable within 30 days. All receivables outstanding for more than 30 days are considered to be passed due.

Refer to note 3 for more information regarding the provision for impairment raised against each service type as well as receivables considered to be passed due.

Also refer to note 3 for more information regarding balances renegotiated beyond the original 30 days payment period initially granted.

No receivables were pledged as security for liabilities and no collateral is held from any consumers (other than consumer deposits).

The following service receivables are passed due, but not impaired:

| Total       | 13 443 311 | 14 501 365 |
|-------------|------------|------------|
| Other       | 183 893    | 204 752    |
| Sewerage    | 2 556 585  | 2 833 952  |
| Refuse      | 2 113 969  | 2 418 004  |
| Water       | 5 633 615  | 6 440 979  |
| Electricity | 2 955 249  | 2 603 678  |

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Figures in Rand 2017 2016

#### 48 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### 48.2 Currency risk (Market Risk)

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The financial instruments of the Municipality is not directly exposed to any currency risk.

#### 48.3 Interest rate risk (Market Risk)

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The following balances are exposed to interest rate fluctuations:

| Cash and Cash Equivalents (excluding cash on hand)                                 | 22 292 560   | 2 482 801    |
|--|--------------|--------------|
| Long-term Liabilities (including current portion)                                  | (22 051 586) | (22 654 311) |
| Net balance exposed  | 240 974      | (20 171 510) |
| Potential effect of changes in interest rates on surplus and deficit for the year: |              |              |
| 1% (2016 - 1%) increase in interest rates  | 2 410        | (201 715)    |
| 0% (2016 - 0%) decrease in interest rates  | -            | -            |

South Africa is currently in an upward interest rate cycle and management does not foresee a decrease in the next 12 months.

### 48.4 Liquidity risk

Liquidity risk is the risk encountered by the Municipality in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is mitigated by approving cash funded budgets at all times to ensure commitments can be settled once due over the long term. The Municipality also monitors its cash balances on a daily basis to ensure cash resources are available to settle short term obligations.

The following balances are exposed to liquidity risk:

|  | Within 1 Year | Between 2 to 5 years | After 5 years | Total       |
|--|---------------|----------------------|---------------|-------------|
| 30 JUNE 2017                                 |               |                      |               |             |
| Annuity Loans                                | 4 546 228     | 16 071 695           | 8 425 064     | 29 042 986  |
| Finance Lease Liabilities                    | 745 146       | 1 688 525            |               | 2 433 671   |
| Payables from exchange transactions          | 37 430 623    | -                    | -             | 37 430 623  |
| <b>Unspent Conditional Government Grants</b> | 32 314 994    |                      | <u>-</u>      | 32 314 994  |
| Total  | 75 036 991    | 17 760 219           | 8 425 064     | 101 222 274 |
| 30 JUNE 2016                                 |               |                      |               |             |
| Annuity Loans                                | 4 513 824     | 16 674 832           | 12 368 154    | 33 556 810  |
| Finance Lease Liabilities                    | 260 432       | 68 395               | -             | 328 827     |
| Payables from exchange transactions          | 50 762 015    | -                    | -             | 50 762 015  |
| <b>Unspent Conditional Government Grants</b> | 2 414 336     |                      | <u>-</u>      | 2 414 336   |
| Total  | 57 950 608    | 16 743 227           | 12 368 154    | 87 061 989  |

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

# Figures in Rand 2017 2016

#### 48 FINANCIAL RISK MANAGEMENT (CONTINUED)

#### 48.5 Other price risk (Market Risk)

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Municipality is not exposed to any other price risk.

#### 49 FINANCIAL INSTRUMENTS

The Municipality recognised the following financial instruments at amortised cost:

#### **Financial Assets**

| Cash and Cash Equivalents                | 22 300 890 | 2 490 231  |
|--|------------|------------|
| Receivables from Exchange transactions   | 26 473 276 | 27 625 088 |
| Total                                    | 48 774 167 | 30 115 319 |
| <u>Financial Liabilities</u>             |            |            |
| Current Portion of Long-term Liabilities | 3 039 169  | 2 480 523  |
| Payables from exchange transactions      | 37 430 623 | 50 762 015 |
| Unspent Conditional Government Grants    | 32 314 994 | 2 414 336  |
| Long-Term Liabilities                    | 19 012 417 | 20 173 788 |
| Total                                    | 91 797 203 | 75 830 662 |

#### 50 STATUTORY RECEIVABLES

In accordance with the principles of GRAP 108, Statutory Receivables of the Municipality are classified as follows:

| Total                                      | 18 513 107 | 12 970 869 |
|--|------------|------------|
| Fines                                      | 2 349 679  | 321 241    |
| Rates                                      | 6 906 875  | 6 164 193  |
| Receivables from Non-Exchange Transactions | 9 256 554  | 6 485 435  |

The amounts above are disclosed after any provision for impairment has been taken into account.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

| Figures | in Rand   | 2017      | 2016      |
|---------|---|-----------|-----------|
| 51      | EVENTS AFTER REPORTING DATE   |           |           |
|         | The Municipal Manager entered into a settlement agreement and vacated his post on 1 July 2017. At reporting date, Mr Louis Volschenk was the acting Municipal Manager.  |           |           |
| 52      | IN-KIND DONATIONS AND ASSISTANCE  |           |           |
|         | The Municipality did not receive any in-kind donations or assistance during the year under review.  |           |           |
| 53      | PRIVATE PUBLIC PARTNERSHIPS (PPP's)   |           |           |
|         | The Municipality did not enter into any PPP's in the current and prior year.  |           |           |
| 54      | CONTINGENT LIABILITIES  |           |           |
|         | The Municipality were exposed to the following contingent liabilities at year end:  |           |           |
| 54.     | 1 Matter against Goedehoop Citrus by the Municipality   | -         | -         |
|         | Goedehoop Citrus mitigation recovery of R1 773 578 for shortfall for erven 1765 and 1766 which was sold for substantially less than market value. This case is still pending, and if ruled in favour of Goedehoop Citrus, will result in the Municipality to repay legal fees incurred by Goedehoop Citrus. At this stage the legal fees can not be determined. |           |           |
| 54.     | 2 Matter against the Municipality by Jimmy Barnard  | 50 000    | 50 000    |
|         | This matter has been finalised but legal costs still have to be taxed or agreed. The legal costs for which the Municipality may be liable are estimated at R50 000.   |           |           |
| 54.     | 3 Matter against the Municipality by Mathilda Smith   | 15 000    | 15 000    |
|         | This applicant is claiming for damages amounting to R15 000. Since 2010, the applicant's attorneys has not taken any action on this matter. However, in 2015 she instructed her attorneys to continued with the matter.   |           |           |
| 54.     | 4 Matter against the Municipality by Siphokazi Sinxo (on behalf of her minor son, Lunje Sinxo)  | 1 400 000 | 1 400 000 |
|         | The applicant is claiming for damages amounting to R1 400 000 in total. These damages relate to an injury her son obtained on the property of the Municipality when an entrance gate became dislodged and fell on her son.  |           |           |

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2017

Figures in Rand 2017 2016

#### 55.3 Other related party transactions

The following purchases were made during the year where Councillors, Management or Employees have an interest:

| Company Name           | <b>Related Party</b> | Service Capacity    | Relationship | Amount  | Amount  |
|------------------------|----------------------|---------------------|--------------|---------|---------|
| P J Sobekwa            | J Sobekwa            | Foreman             | Brother      | 104 450 | 33 600  |
| C Newman               | SC Newman            | Ward Assistant      | Sister       | -       | 70 538  |
| HM Henderson           | C Henderson          | Senior Clerk Stores | Sister       | 105 623 | 171 978 |
| Colc Civil Contraction | H Scheepers          | Tractor Driver      | Brother      | -       | 4 760   |
| Rural Impact           | P V Blankenberg      | Ward Assistant      | Brother      | 29 950  | -       |
| Total                  |                      |                     |              | 240 023 | 280 876 |

#### 56 FINANCIAL SUSTAINABILITY

In the current year a financial turn-around strategy was implemented as part of the long-term financial plan. The results of the said implantation were as follow:

- The current assets to liabilities ratio increased to 0.75:1 in comparison with 0.64:1 of the prior year.
- The average creditors' repayment days improved to 71 days in comparison with 80 days in the prior year.
- Outstanding trade payables as at year-end were R29 244 734, in comparison with R40 800 082 of the prior year.
- Despite a worsening economic conditions, the Municipality was able to maintain it's debtors collection ratio.

As cash shortfall of R11 757 666 as reported in note 2 is only of a temporary nature. After year-end the municipality was able to maintain positive cash balances of R46 538 680 which is more than sufficient address all outstanding statutory obligations.

In addition, harsh austerity measures has been implemented. The 2017/18 budget approved by Council is projecting a cash surplus of R15 796 501 over the MTREF period. The said austerity measures will have no negative impact on service delivery.
